

INDEPENDENT AUDITOR'S REPORT To The Members of Malar Stars Medicare Limited Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Malar Stars Medicare Limited ("the Company"), which comprise the Balance Sheet as at 31 March, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement, the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under Section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

Deloitte Haskins & Sells LLP

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2018, its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit above we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on 31 March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

H

**Deloitte
Haskins & Sells LLP**

- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations, which would impact its financial position.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

**ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT
(Referred to in paragraph (f) under 'Report on Other Legal and Regulatory Requirements' Section of our report of even date)**

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Malar Stars Medicare Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS (retain as applicable) financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' Section of our report of even date)

- (i) The Company does not have any fixed assets and hence reporting under clause (i) of CARO 2016 is not applicable.
- (ii) The Company does not have any inventory and hence reporting under clause (ii) of CARO 2016 is not applicable.
- (iii) According to the information and explanations given to us, the Company has granted unsecured loans to a company covered in the register maintained under Section 189 of the Companies Act, 2013, in respect of which:
 - (a) The terms and conditions of the grant of such loans are, in our opinion, *prima facie*, not prejudicial to the Company's interest.
 - (b) The schedule of repayment of principal and payment of interest has been stipulated and repayments or receipts of principal amounts and interest have been regular as per applicable stipulations.
 - (c) There is no overdue amount remaining outstanding as at the year-end.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits during the year. There were no deposits outstanding any time during the year.
- (vi) Having regard to the nature of the Company's business / activities, reporting under clause (vi) of CARO 2016 is not applicable.
- (vii) According to the information and explanations given to us, in respect of statutory dues;
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Income tax and other material statutory dues applicable to it to the appropriate authorities.
 - (b) There were no undisputed amounts payable in respect of Income-tax and other material statutory dues in arrears as at March 31, 2018 for a period of more than six months from the date they became payable.
 - (c) There are no dues of Income-tax as at March 31, 2018 which have not been deposited on account of any disputes
- (viii) The Company has not taken any loans or borrowings from financial institutions, banks and government or has not issued any debentures. Hence reporting under clause (viii) of CARO 2016 is not applicable to the Company.
- (ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause (ix) of the CARO 2016 Order is not applicable.
- (x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

**Deloitte
Haskins & Sells LLP**

- (xi) The company has not paid / provided any managerial remuneration to any of the managerial personnel.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 Order is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable; for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of CARO 2016 is not applicable to the Company.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its holding, subsidiary or associate company or persons connected with him and hence provisions of Section 192 of the Companies Act, 2013 are not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Malar Stars Medicare Limited

Notes forming part of the Financial Statements for the Year Ended March 31, 2018

1 Nature of operations:

Malar Stars Medicare Limited ('Malar Stars' or 'the Company') was incorporated on July 7, 2009 in Chennai. The Company is a 100% subsidiary of Fortis Malar Hospitals Limited and is primarily engaged in the business of providing medical and surgical consultancy services to its Holding Company, Fortis Healthcare Limited is the Ultimate Holding Company.

2 Statement of Compliance

The financial statements of the Company have been prepared in accordance with IND AS notified under the Companies (Indian Accounting Standards) Rules, 2015 to comply with the Accounting Standards prescribed under Section 133 of the Companies Act, 2013 (to the extent notified and applicable). The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2.1 Standards issued but not yet effective:

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115, 'Revenue from Contracts' and amendments to Ind AS 21, Foreign currency transactions and advance consideration.

a) Amendment to Ind AS 21:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company has evaluated the effect of this on the financial statements and the impact is not material.

b) Notification of Ind AS 115:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The effect on adoption of Ind AS 115 is expected to be insignificant.

3 Significant accounting policies

3.1 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

Historical Cost is generally based on the fair value of the consideration given in exchange of goods and services.

3.2 Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for returns, trade allowances for deduction, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

The Company assessed its revenue arrangements against specific criteria to determine it is acting as principal or agent. The Company has concluded that it is acting as a principal in all its revenue arrangements.

Operating Income

Income from medical and surgical consultancy services provided to its Holding Company based on an agreed cost plus formula.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

3.3 Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each Balance Sheet date.

Malar Stars Medicare Limited

Notes forming part of the Financial Statements for the Year Ended March 31, 2018

Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment.

Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined benefit costs are categorised as follows:

- a) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements;
- b) net interest expense or income; and
- c) remeasurement

The company presents the first two components of defined benefit costs in the statement of profit and loss in the line item "Employee benefits expense". Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the company can no longer withdraw the offer of the termination benefit and when the company recognises any related restructuring costs.

Short-term and other long-term employee benefits:

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by employees up to the reporting date.

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes and liability is determined using the present value of the estimated future cash outflows expected to be made by the company in respect of services provided by employees up to the reporting date. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the leave as a current liability in the balance sheet; to the extent it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

3.4 Share-based payments

The Company is covered under the Employee Stock Option Plan of Fortis Malar Hospitals Limited, the Holding Company. Under the plan, some of the eligible employees of the Company may be granted employee stock option of Fortis Malar Hospitals Limited in accordance with the terms and conditions as specified in the plan. The plan is assessed, managed and administered by the Holding Company, whose options have been granted to employees of the Company and the Holding Company has not transferred any charge on account of stock expense to the Company.

3.5 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates applicable for the current financial year.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India applicable for the current financial year.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in computation of taxable profit.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Malar Stars Medicare Limited

Notes forming part of the Financial Statements for the Year Ended March 31, 2018

In the case of unused tax losses probability is evaluated considering factors like existence of sufficient taxable temporary differences, convincing other evidence that sufficient taxable profit will be available. At the end of each reporting period, the company reassesses unrecognized deferred tax assets and, the company recognizes a previously unrecognized Deferred Tax Asset to the extent that it has become probable that future taxable profit will allow the Deferred Tax Asset to be recovered.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred taxes relate to the same taxable company and the same taxation authority.

(iii) Current and deferred tax for the year

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(iv) MAT Credit

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT Credit becomes eligible to be recognised as an asset, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal Income Tax during the specified period

3.6 Provision

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

3.7 Cash and cash equivalents (for the purpose of Cash Flow Statement)

Cash and cash equivalents in Cash Flow Statement comprise cash at bank and in hand and short term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

3.8 Segment Reporting

Operating segments reflect the Company's management structure and the way the financial information is regularly reviewed by the Company's Chief operating decision maker (CODM). The CODM considers the business from both business and product perspective based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit / (loss) amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance.

The accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment.

Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on reasonable basis have been included under "unallocated revenue / expenses / assets / liabilities".

3.9 Earnings per share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares.

Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of common shares outstanding during the period.

Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding, for the effects of all dilutive potential equity shares.

3.10 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

3.11 Operating cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3.12 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- a) In the principal market for the asset or liability, or
- b) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

3.13 Financial Instrument

Initial recognition

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

a. Non-derivative financial instruments

(i) Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

(iii) Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

(iv) Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

b. Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of company after deducting all of its liabilities. Equity instruments are recognised at the proceeds received, net of direct issue costs

3.14 Impairment of financial assets

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

However, for trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant

3.15 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralized borrowing for the proceeds received.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts

3.16 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations discharged, cancelled or have expired. An exchange between with a lender of debt instruments substantially different terms is accounted for as an extinguishment of the original financial liability the recognition of a new financial liability. Similarly, a substantial modification of the terms of existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

4 Critical Accounting Judgements and Key Sources of Estimation Uncertainty

Inherent in the application of many of the accounting policies used in preparing the Financial Statements is the need for Management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses. Actual outcomes could differ from the estimates and assumptions used.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

- a. Valuation and measurement of income taxes and deferred taxes (Refer Note 3.5)
- d. Assets and obligations relating to employee benefits (Refer Note 3.3)

Defined Benefit Plans

The Company has a defined benefit gratuity plan, where under employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn basic salary) for each completed year of service subject to a maximum limit of Rupees 1,000,000 in terms of the provisions of Gratuity Act, 1972. Vesting occurs upon completion of 5 years of service.

(a) Amount recognised in the statement of profit & loss in respect of the defined benefit plan are as follows

(Amount in Rs.)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Amounts recognised in Statement of Profit & Loss in respect of these defined benefit plans are as follows:		
Service Cost	67,006	55,941
- Current Service Cost	-	-
- Past service cost and (gains)/losses from settlements	36,236	28,165
Net interest expense		
	1,03,242	84,106
Components of defined benefit costs recognised in profit or loss		
Remeasurement on the net defined benefit liability:		
Return on plan assets (excluding amount included in net interest expense)	(9,885)	71,436
Actuarial gains and loss arising from changes in financial assumptions	(42,781)	(19,154)
Actuarial gains and loss arising from experience adjustments		
Benefits Paid		
	(52,666)	52,282
Components of defined benefit costs recognised in other comprehensive income		
Total	50,576	1,36,388

(i) The current service cost and interest expense for the year are included in the "Employee Benefit Expenses" in the statement of profit & loss under the line item "Gratuity Expense"

(ii) The remeasurement of the net defined benefit liability is included in other comprehensive income.

(b) The amount included in the balance sheet arising from the entity's obligation in respect of defined benefit plan is as follows :

(Amount in Rs.)

Particulars	As at March 31, 2018	As at March 31, 2017	As at March 31, 2016
I. Net (Asset)/Liability recognised in the Balance Sheet			
1. Present value of defined benefit obligation as at 31 March	5,50,385	4,99,809	3,63,421
2. Fair value of plan assets as at 31 March	-	-	-
3. (Surplus)/Deficit	5,50,385	4,99,809	3,63,421
4. Current portion of the above	67,611	1,01,347	54,241
5. Non current portion of the above	4,82,774	3,98,462	3,09,180

(c) Movement in the present value of the defined benefit obligation are as follows :

(Amount in Rs.)

Particulars	For the year ended March 31, 2018	For the year ended March 31, 2017
Change in the obligation during the year ended 31 March		
Present value of defined benefit obligation at the beginning of the year	4,99,809	3,63,421
Expenses Recognised in Statement of Profit and Loss:		
- Current Service Cost	67,006	55,941
- Past Service Cost		
- Interest Expense (Income)	36,236	28,165
Recognised in Other Comprehensive Income:		
Remeasurement gains / (losses)		
- Actuarial Gain (Loss) arising from:		
i. Demographic Assumptions	(9,885)	71,436
ii. Financial Assumptions	(42,781)	(19,154)
iii. Experience Adjustments		
Benefit payments		
Present value of defined benefit obligation at the end of the year	5,50,385	4,99,809

(d) The principal assumptions used for the purpose of actuarial valuation were as follows :

(Amount in Rs.)

Particulars	As at March 31, 2018	As at March 31, 2017	As at March 31, 2016
Discount rate	7.50%	7.25%	7.25%
Expected rate of salary increase	7.50%	7.50%	4.00%
Expected return on plan assets	-	-	-
Withdrawal Rate	4.00%	4.00%	4.00%
Expected average remaining working life *			
Mortality	IALM 2006-08(Uit)	IALM 2006-08(Uit)	IALM 2006-08(Uit)

* Based on India's standard mortality table with modification to reflect the expected changes in mortality/others

Notes forming part of the Financial Statements for the Year Ended March 31, 2018

Significant actuarial assumptions for the determination of defined obligation are discount rate, expected salary increase rate and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period while holding all other assumptions constant:

(i) If the discount rate is 50 basis point higher (lower) the defined benefit obligation would decrease by Rs. 570,464 (increase by Rs. 531,406) (As at March 31, 2017 ; decrease by Rs. 509,604 (increase by Rs. 490,372).

(ii) If the expected salary growth rate increase/(decreases) by 0.5 % the defined benefit obligation would increase by Rs. 570,368 (decrease by Rs. 531,406) (As at March 31, 2017 ; increase by Rs. 509,937 (decrease by Rs. 489,944).

(iii) If the life expectancy increases(decreases) by one year for men and women the defined benefit obligation would increase by Rs. 550,385 (decrease by Rs. 550,385) (As at March 31, 2017 ; increase by Rs. 499,768 (decrease by Rs. 499,786).

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligations as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Furthermore In presenting the above sensitivity analysis the present value of defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

There is no change in the methods and assumptions used in preparing the sensitivity analysis from the prior years.

(e) Experience Adjustments:

Experience Adjustments	(Amount in Rs.)				
	For the period ended March 31, 2018	For the period ended March 31, 2017	For the period ended March 31, 2016	For the period ended March 31, 2015	For the year ended March 31, 2014
Defined Benefit Obligation	5,50,385	4,99,809	3,63,421	2,98,851	2,03,318
Fair value of plan assets	-	-	-	-	-
Surplus/(Deficit)	(5,50,385)	(4,99,809)	(3,63,421)	(2,98,851)	(2,03,318)
Experience adjustment on plan liabilities	(9,885)	71,436	(13,131)	25,645	15,350
[(Gain)/Loss]					
Assumptions adjustment on plan assets	42,781	19,154	-	-	-
[(Gain)/Loss]					

Note:

The information relating to experience adjustments with respect to prior years have been disclosed based on information available with the Management.

Malar Stars Medicare Limited

Notes forming part of the financial statements for the year ended March 31, 2018

29 Financial Instruments

(I) Capital Management

The Company manages its capital to ensure that it is able to continue as going concern while maximising the return to the stakeholders through the optimisation of the equity balance. The Capital structure of the Company consists of Net Debt and total Equity. The Company is not subject to any externally imposed capital requirement. In order to maintain the capital structure in consistent with others in the industry, the Company monitors capital on the basis of the following gearing ratio.

Gearing Ratio

Particulars	As at March 31, 2018	As at March 31, 2017	As at March 31, 2016	As at April 1, 2015
Debt (Refer Note 14)	60,10,00,000	61,79,33,576	61,79,33,576	61,79,33,576
Cash and Cash Equivalents (Refer Note 7)	(52,578)	(24,01,206)	(20,13,452)	(31,85,398)
Total Debt	60,09,42,422	61,55,32,370	61,59,20,119	61,47,48,178
Total Equity	1,50,10,647	1,31,65,802	1,02,61,214	83,35,389
Net Debt to equity ratio	40.03	46.75	60.02	73.75

(II) Categories of Financial Instruments

(a) Financial Assets

Financial assets	Amount in Rs.	
	As at March 31, 2018	As at March 31, 2017
Measured at amortised cost		
Trade Receivables	8,22,825	-
Cash and Cash Equivalents	57,578	24,01,206
Loans	61,30,00,000	61,30,00,000
Other Financial Assets	-	6,33,99,523
Total	61,38,80,403	67,88,00,729

(b) Financial Liabilities :

Financial assets	Amount in Rs.	
	As at March 31, 2018	As at March 31, 2017
Measured at amortised cost		
Trade Payables	16,13,793	38,85,473
Short Term Borrowings	60,10,00,000	61,79,33,576
Other Financial Liabilities	-	4,17,48,608
Total	60,26,13,793	66,35,67,657

(III) Financial Risk Management Framework

The Company manages financial risk relating to the operations through internal risk reports which analyse exposure by degree and magnitude of risk. These risks include market risk (including interest rate risk and other price risk), credit risk and liquidity risk. The focus of the chief operating decision maker (CODM) is to assess the unpredictability of the financial environment and to mitigate potential adverse effects, if any, on the financial performance of the Company.

The Company does not enter into or trade financial instruments including derivative financial instruments for speculative purpose.

(IV) Foreign Currency Risk Management

The Company undertakes no transactions denominated in foreign currencies and consequently, exposures to exchange rate fluctuations does not arise. Accordingly, there are no carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of each reporting period since the Company has a geographic concentration of such assets and liabilities in India.

(V) Liquidity and interest risk tables

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Company consistently generated sufficient cash flows from operations to meet its financial obligations as and when they fall due.

Particulars	Weighted average interest rate	(Amount in Rs.)			
		Within 1 Year (Rs.)	1-2 years (Rs.)	More than 2 Years (Rs.)	Total (Rs.)
As at March 31, 2018					
- Trade Payables	NA	16,13,793	-	-	16,13,793
- Short Term Borrowings	10%	60,10,00,000	-	-	60,10,00,000
- Other Financial Liabilities	NA	-	-	-	-
Total		60,26,13,793	-	-	60,26,13,793
As at March 31, 2017					
- Trade Payables	NA	38,85,473	-	-	38,85,473
- Short Term Borrowings	10%	61,79,33,576	-	-	61,79,33,576
